

Safety Specialist 2

Summary

The San Jacinto River Authority is seeking a Safety Specialist 2 for the Risk Management Department, based out of Conroe, Texas. Some of the duties include:

- Under the direction of the Risk Manager, establishes and promotes a safe, accident-free, healthy work environment that is compliant with all applicable local, state, federal regulations, and SJRA policy.
- Collaborates and coordinates with SJRA personnel to implement accident prevention and remedial measures for task-specific safety issues and potentially hazardous conditions/equipment including documentation of the actions taken.
- On scene response to all workers' compensation-related accidents and incidents, including, but not limited to, coordination of post-accident drug testing, incident investigation, accident prevention and corrective measures, and return-to-work job physical analysis.
- Conducts safety inspections of facilities, work areas, equipment, and materials; recommends and reports corrective action to ensure appropriate measures have been taken.
- Provides new-employee health and safety orientations.
- Demonstrates safe work practices and instructs personnel on proper safety techniques and procedures.

The pay range for this position is \$56,000 to \$70,000/year commensurate with experience. SJRA offers a full benefit package including medical, dental & vision insurance, paid vacation and sick time, and retirement plan.

Requirements

- Associate's degree from a college or technical school with specific knowledge of industrial safety with at least five (5) years' experience industrial safety. Equivalent combination of education and experience considered.
- Knowledge of water/wastewater utility operations is a plus.
- Basic understanding of Microsoft Office: Word, Excel, PowerPoint, Outlook
- Current Texas Driver's License with insurable driving record.
- OSHA 30 hr General Industry certification and/or related safety certification is preferred.
- 40 hr HAZWOPER Certification, preferred.
